

BOSSERT "Radio" Bungalow Group

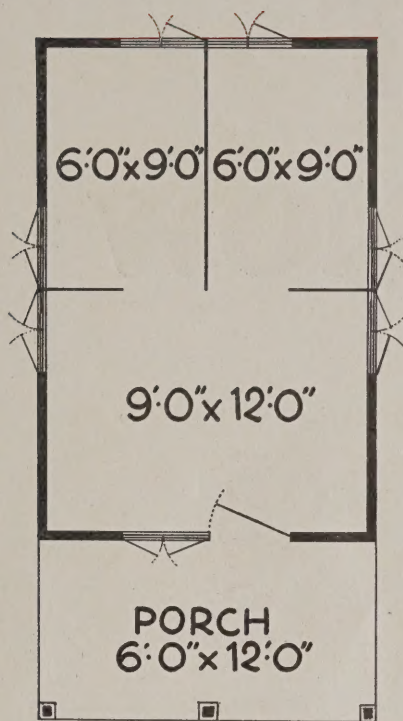

THIS Spring we introduced the "RADIO" Bungalow in the size of four rooms, sectional built, unlined, ready for erection, designed for the lovers of the great out-of-doors.

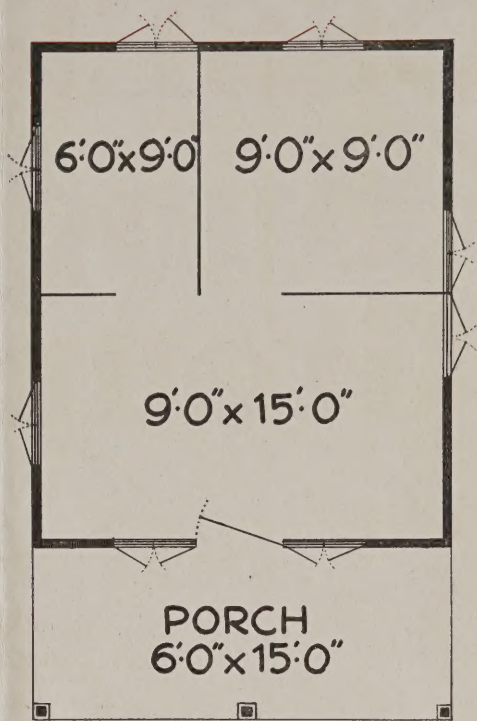

From the first announcement and showing of this wonderful little house it sprang into unprecedented

popularity with customers from everywhere clamoring for the "RADIO". In addition to the great demand for this house we received hundreds of requests for the same house in slightly larger sizes and slightly smaller sizes so that our engineering board have worked out the "RADIO" in six dif-

ferent sizes, floor plans of which are illustrated in this folder together with the wonderfully low price on each size, so that now you have the opportunity to select the size "RADIO" that is just exactly what you want.

The "RADIO" is designed for a summer bungalow in the woods, in the mountains, by the seashore, in the country, in fact anywhere that you wish to spend your time close to nature, but these houses are so wonderful that many of our customers have wanted them lined for warmth in the winter months, so we are giving the price for the lining, which is extra, with each size floor plan.

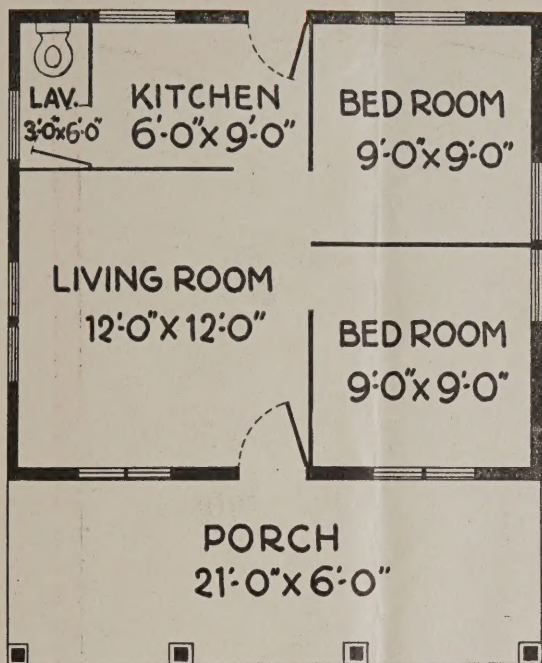

We also show sectional views of three of the houses illustrating how the furnishings may be placed and

to enable you to visualize how much room there is in the "RADIO" Bungalow.

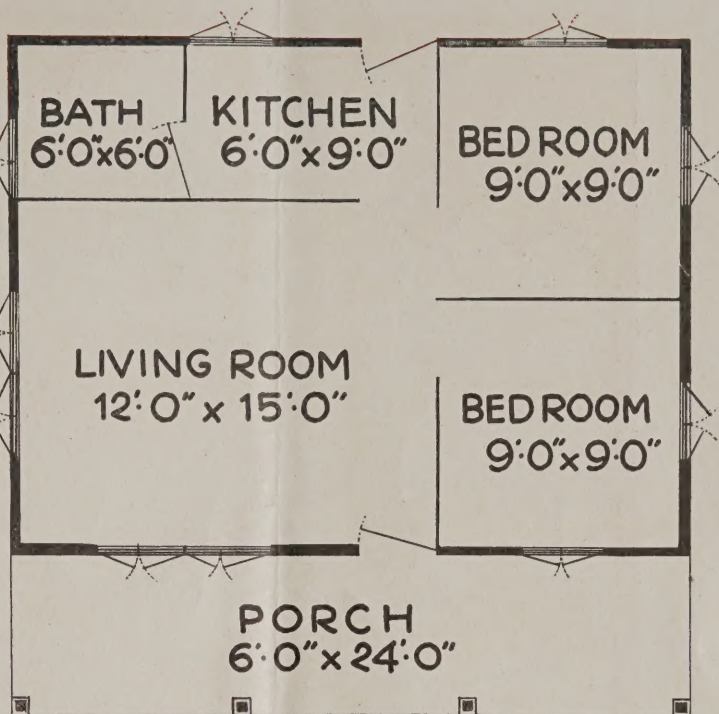

No other house offered has so many advantages for so little money and no other house has ever sprung into such popularity so quickly.

The "RADIO" is built under the Bossert patented sectional construction. It is completely built at the mill in quantities and ready to be assembled complete when received by you. It may be set on posts or stones laid on the ground, and can be erected by anyone, anywhere with little effort either on your own ground or on rented ground; you can have it in the mountains this year and can move it to the seaside for next year if you wish as it is so easy to erect. All of the windows are casement windows

opening out. All of the rooms are square, which offers the most available space for the arrangement of the furniture without that cramped, crowded condition so usual in summer bungalows.

The walls are interchangeable, so that your living room may be on the right-hand side or the left-hand side of the house, as you desire. It is made in three-foot sections which enable you to place the sections containing the windows just where you prefer them.

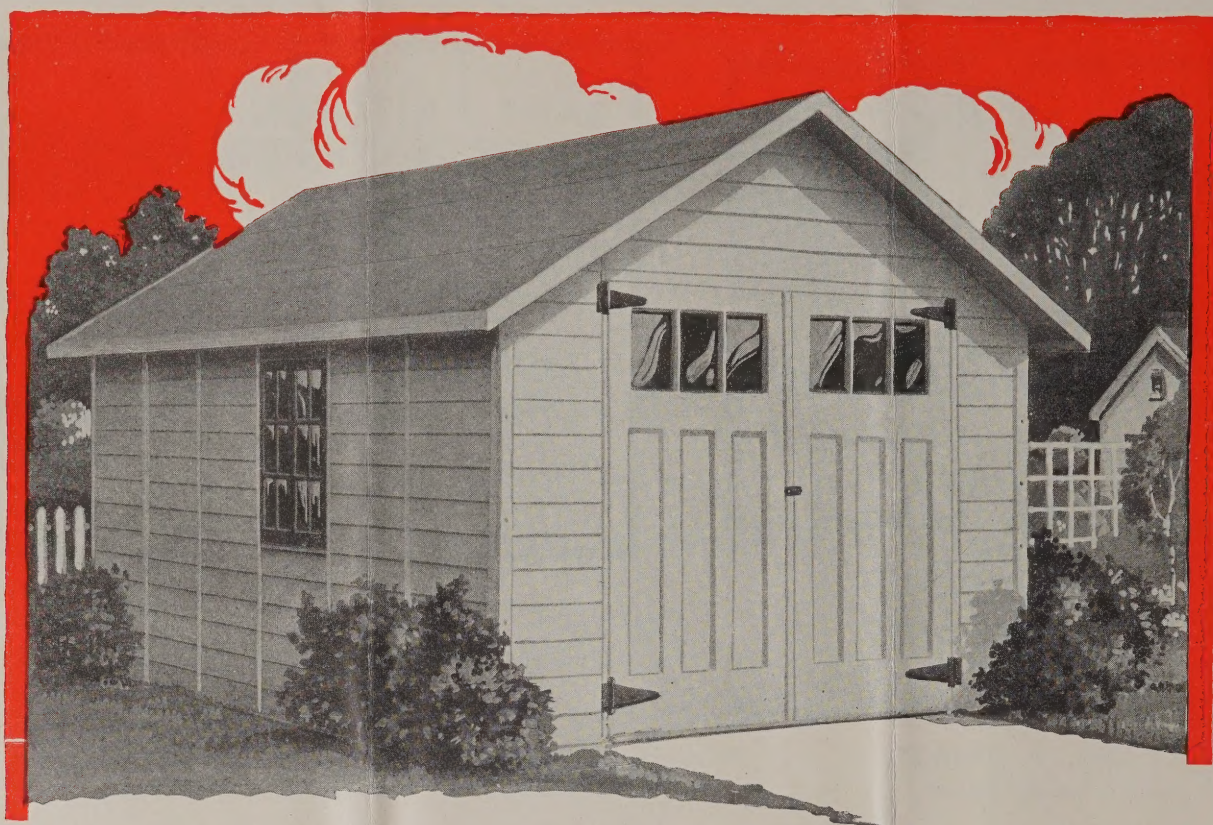

One of New York's most famous architects designed the "RADIO" with an eye to beauty and charm as well as utility. The "RADIO" has been displayed

and the balance payable with your shipping directions when house is ready for shipment. These terms are necessary on account of the exceedingly low price of this charming house.

Remember two or three men can easily erect it in a day or at the outside a day and a half. Nothing to do but set the post or lay some stones to rest the sills on and follow directions. You can't go wrong. You don't need carpenters or skilled mechanics.

Nothing offers so much in health and pleasure to the entire family as one of these "RADIO" Bungalows, as it enables you to spend all of the time you wish in the country, in the woods, in the mountains, by the seashore, in fact anywhere that your taste and inclination may call you.

Study the floor plans of the different sizes; select the one best suited to your particular requirements; fill out the enclosed order blank and mail to us with check for 25% ($\frac{1}{4}$), of the price (balance when ready for shipment) and enjoy the most splendid, charming, practical "RADIO" Bungalow. The very low price of the "RADIO" Bungalow is made possible by their being built in quantities of 100 at a time in the mammoth Bossert plant, covering 32 acres of ground with $\frac{1}{2}$ mile of dock right in Greater New York where the tremendous buying facilities and economical wood manufacturing machinery of every description is utilized with but one profit from the forest to you; where every salvage of waste material is utilized with all of the saving accruing to you in these remarkably low prices.
